Lake City Finance - Lake City, SC

Mauldin Finance - Mauldin, SC

Regulations and Compliance

Changes to the CFPB

Many have speculated what will become of the CFPB in a Trump presidency; no one knows for sure what will happen.

It is unlikely that the CFPB will be completely dismantled; it would be difficult even with a republican held house and senate. What the future holds, at this point, is strictly speculation.

In the meantime, the wise course of action is to continue to adhere to the policies and practices put forth by the CFPB in its current form.

Did you know?

Our hosting partner, Venture Technologies, undergoes a regular maintenance and upgrade schedule for the entire Data Center.

These instances are handled in the middle of the night, when user traffic is effectively non-existent, and usually only takes a few minutes to complete. However on Saturday night, December 3rd, beginning at midnight, Venture will take the entire Data Center off line to perform several firewall, ISP and memory maintenance items and upgrades.

During the hours of midnight and 4 am, no user will have access to the system. We are letting you know because of this extended down time. In all likelihood, no one will be affected during these hours, but we wanted you to be aware.

Thank you for allowing Credex to be your preferred Loan Management Software partner, and, as always, please contact us with any questions.

Thanks,

Michael
